165 Armory Operations

The Agency operates and maintains armories IAW National Guard Regulation (NGR) 5-1 and South Carolina Code of Laws 25-1-1640. Most are considered State property. National Guard Bureau (NGB) pays 75/25 of the construction costs and retains its interest for 25 years in exchange for the State agreeing to operate and maintain them. In recent years due to the lack of state funding around the nation, NGB has allowed Appendix 1 funds (see info in next item regarding cooperative agreements and appendices) to be used, if available, to pay some O&M costs on a varying match scale dependent upon the intended use or classification of the facility. The most often used classification/match is state-owned armories on state land and 50/50 match for utilities and repairs to major operating systems of the building. Included in this activity is the Agency's Building and Grounds (B&G) department. B&G performs or contracts for maintenance and repairs on these armories and provides grounds care for the headquarters facilities.

FY 2007-08

Total	General Funds	Federal Funds	Supp. Funds	CRF	Other Funds	FTEs
\$7,084,765	\$2,535,519	\$943,498	\$2,500,000	\$0	\$1,105,748	13.75

Expected Results:

Due to lack of State funding for many years, the Agency realizes that it will have significant deferred maintenance. Increased funding for FY 2007-2008 will address a portion of this deferred maintenance. B&G maintains a work order database of the location and nature of the work requests. Depending on budgetary constraints and the urgency of the work order, B&G performs/contracts for maintenance or defers the request.

Outcome Measures:

Completed as many work orders requests as funding allowed in accordance with the priorities established by management. Rented the armories to the public in accordance with AGR 37-4 as a community service function and to supplement the cost of O&M. Provided funding and equipment for grounds maintenance to be performed mainly by National Guard personnel.

166 Army Support - Operations and Maintenance

For both the Army and Air National Guard, the Adjutant General's Office enters into a five year Master Cooperative Agreement (MCA) with the National Guard Bureau. Each area of operation in the MCA is governed and budgeted as an appendix. The primary governing document is NGR 5-1. Appendix 1 provides professional technical and administrative support to operate, maintain, design and supervise construction of over 430 facilities and 22,000 acres of land for the SC Army National Guard

statewide. This includes the National Guard Armories, the Army Aviation Flight Facility, the United States Property and Fiscal Office and five training centers, one of which contains ranges for weapons up to and including the M-1 Abrams tank.

FY 2007-08

Total	General Funds	Federal Funds	Supp. Funds	CRF	Other Funds	FTEs
\$4,667,231	\$73,890	\$4,593,341	\$0	\$0	\$0	16.00

Expected Results:

Continue to operate and maintain the existing National Guard facilities to enhance the recruitment, training and operational readiness within the fiscal limitations of the State general fund's budget. Master planning for facilities and training site usage to ensure that requirements for the next generation of military and domestic security missions are met. The goal is to replace old armories outside the 30 year life-cycle through new construction and consolidation of units.

Outcome Measures:

The Agency's goal is to replace old facilities outside the life cycle and consolidate units. The Agency is currently in the stages of constructing the Charleston Readiness Center Armory. The Agency is experiencing deficiencies in all Armories due to high consumption of available funds with utility usage and cost. Due to changes in the Department of Army inspection standards, the Armories coded "Green" are marginally less adequate for supporting the assigned soldiers. Deficiencies impact soldiers' morale and influence potential recruitment. Correction, repair and maintenance of these deficiencies play an integral role in controlling inflationary energy costs.

167 Army Support - Environmental

Appendix 2 provides professional and administrative support to protect the environment, natural resources and personnel at over 420 facilities and 22,000 of training areas for the SC Army National Guard statewide. This includes a variety of programs from entomology to the preservation of Native American History.

Appropriation Period: FY 2007-08

Outcome Measures:

Program uses GIS data to streamline environmental, training and construction projects saving time, increasing the cost effectiveness of other programs. Environmental has trained personnel in areas such as Environmental Compliance and Environmental Management Systems (EMS) - thus protecting troop health and the environment. GIS data is shared with the Training and Construction divisions targeting troop recruitment, locating facilities within the proper locations. Division is working with the Combined Service and Maintenance Shop to change from solvent based paints to water based paint reducing Volatile Organic Solvents (VOLS). Working relationships with Native American groups have expedited the SCARNG's ability to utilize land that is assigned.

Agency: E24 - Adjutant General**Functional Group:** Legislative,

170 Army Support - Sustainable Range Program

Appendix 7 provides the funding, personnel and resources to operate, maintain and build live fire ranges, tank trails, maneuver areas and training areas on the 5 training centers in South Carolina. Sustainment of land requires routine monitoring of and protection of environmental assets during training.

FY 2007-08

Total	General Funds	Federal Funds	Supp. Funds	CRF	Other Funds	FTEs

Expected Results:

To provide the training land and rangers to meet the changing requirement of the National Guard in South Carolina. This group is tasked to prevent the losses of training land and programs from environmental destruction.

Outcome Measures:

Program is 100% federally funded. These ranges provide training and weapon qualifications for the South Carolina National Guard, as well as the Inactive Ready Reservist. Training lands were properly maintained and managed to retain this valuable resource. This group is tasked to prevent the losses of training land and programs from environmental destruction.

171 Army Support - Full-Time Dining Facility

Appendix 8 serves as the primary funding conduit for the Full Time Dining Facility located on the R. L. McCrady Training Center at Fort Jackson. This operation is the primary source of feeding SC Army National Guard troops training there. (Note: See Enterprise Operations activity further down in this report. Due to budgetary and GAAP accounting requirements, the federal funding on this line will be duplicated as a portion of the Enterprise Operations' Other Funds budget.)

FY 2007-08

Total	General Funds	Federal Funds	Supp. Funds	CRF	Other Funds	FTEs
\$200,000	\$0	\$200,000	\$0	\$0	\$0	0.00

Expected Results:

Continued operation of a quality and flexible dining facility increases the ability for National Guard personnel to train in South Carolina, helping to eliminate out of state deployment of SC troops for training.

Outcome Measures:

SC Army National Guard troops in training or at school at the McCrady and Clarks Hill Training Centers were served timely and properly at dining facility. Due to current world affairs there has been an increase in the number of troops dining in these locations. Because of the economy of scale, funds in excess of operating costs will be available for Armory Operations.

172 Army Support - Supplemental Transportation

To minimize the bus fleet required to move troops for training and mobilization, the Agency uses Appendix 19 and has an agreement with the SC Department of Education to rent school buses on an as-needed basis, subject to availability.

FY 2007-08

Total	General Funds	Federal Funds	Supp. Funds	CRF	Other Funds	FTEs

173 Army Support - Distance Learning

Using a combination of military and civilian facilities and staff, the Agency operates nine Distance Learning and Teleconferencing Centers that provide access to train and communicate in a real time classroom environment.

FY 2007-08

Total	General Funds	Federal Funds	Supp. Funds	CRF	Other Funds	FTEs
\$300,000	\$0	\$300,000	\$0	\$0	\$0	0.00

Expected Results:

The primary goal is to assist National Guard members in obtaining required training while minimizing the cost and time for both the government and the members. Other governments, businesses, and the public are allowed access at a reasonable cost to help sustain the program.

Outcome Measures:

Program is a cost effective means of communication between military staff to attend and participate in required training. This programs' services are also offered on a sliding scale cost to other governmental entities and the public in order for organizations to reduce cost.

Agency: E24 - Adjutant General

Functional Group: Legislative,
Executive &

174 Army Support - Youth Challenge

The Agency operates two Youth Challenge Academies serving high school dropouts (aged 16-18) in a residential educational facility. One is housed and partnered with the Wil Lou Gray Opportunity School located in Springdale. The other is housed and partnered with Clemson University's Camp W. W. Long in Aiken.

\$4,128,000	\$0	\$4,090,000	\$0	\$0	\$38,000	1.00

Expected Results:

The Academies reintroduce the youth to a structured educational program combined with military style physical fitness and community socialization. The National Guard Bureau requires this program to be matched 60/40. For both programs, the State match is derived from the facility support and staff of the host facility and teachers from the supporting school districts. Therefore, the E24 Agency does not budget the required match.

Outcome Measures:

At risk youth who have dropped out of high school receive a "last chance" effort to receive educational training with the goal being to pass the GED. The combined programs had 330 graduates with 150 receiving their GED. Since inception, there have been 2,612 graduates with 855 GEDs having been earned.

175 Air Support - Operations and Maintenance

For both the Army and Air National Guard, the Adjutant General's Office enters into a five year Master Cooperative Agreement (MCA) with the National Guard Bureau. Each area of operation in the MCA is governed and budgeted as an appendix. The primary governing document is NGR 5-1. Appendix 21 operates and maintains over 80 facilities and 12,000 acres for the SC Air National Guard at the McEntire Joint National Guard Base.

FY 2007-08

Total	General Funds	Federal Funds	Supp. Funds	CRF	Other Funds	FTEs
\$2,828,661	\$570,294	\$2,255,367	\$0	\$0	\$3,000	20.55

Expected Results:

Generally, the National Guard Bureau requires runway areas to be maintained by the military arm of the SC Military Dept. (SCMD) but requires the remainder of the Air Station to be operated and maintained by the state arm of the SCMD.

Outcome Measures:

Facility Operations and Maintenance Activity (FOMA) continued to be marginally funded during the last fiscal year. This infrastructure, which includes 2300 acres, 93 facilities, and an active 9000 foot runway on McEntire Joint National Guard Base (MJNGB), suffered immeasurably. The Agency received special appropriations during SFY 2005 and a one-time appropriations for SFY 2007. The agency made up for a shortfall in SFY 2007 from carryforward monies. The increased budget for SFY 2007-2008 should address this shortfall
